"We're not like the other guys!"

Hello friend,

Thank you for taking the time for letting us bend your ear and to learn a little about the musical group, The Slug Nickel Band.

The Slug Nickel Band is a CT based, 5 piece comic/bluegrass/country/folk/rock band that has been performing in the greater Hartford area in various incarnations since 1999. What started as a humble solo act playing weekly (NOT weakly) at a Manchester, CT brewery is now a full blown bar band with a unique and diverse repertoire ranging from rock, blues and reggae to Motown and calypso, Texas swing and old time blue grass. Throw in some Irish drinking songs and serve it up with a comic delivery and you have a sound that is the signature of The SLUG NICKEL BAND.

Their low tech, high quality shows conjure images of fishing holes, rusty cars, and smoke filled gin mills, all places your average American would recognize with great fondness. No elevator muzak here. SLUG NICKEL rips up all types of music by the roots and shakes it in your face, dirt and all!

The Slug Nickel Band has been performing at festivals, parties, social functions, pubs, clubs and bars for quite some time. In this package you will find an extensive song list, contact information, pictures and a demo CD containing 5 songs recorded at the famous, Bar None Studios with legendary Collin Tilton.

Please feel free to contact us by phone, email, mail or via our website.

In peace,

Toad
The Slug Nickel Band
